

GN 473

Base plate clamp mountings

Adjustable clamping lever GN 511

Application example

technical informations

Material
Aluminium.

Finish

- Version MT: matte, slide ground.
- Version ELS: anodised, black.

Clamping screws

AISI 304 stainless steel socket cap screws DIN 912.

Features and applications

The GN 473 Base plate clamp mountings have a horizontal and a vertical clamp bore, with the vertical clamp bore capable of holding additional square tubings.

The bore spacing m of the foot clamp mountings GN 473 is matched with the clamp mountings GN 477 and the flanged bolts GN 480 as well as GN 51.6 retaining magnets.

The standard clamping bolts are socket cap screws DIN 912. They can be replaced by adjustable clamping kits GN 511 (description see table of dimensions).

Accessories

Clamping kits [GN 511](#) (Clamping handles GN 300.1 with distance bushing).
